JOSIE SHEPHARD PREE.

It affords us great satisfaction to announce the return of the boy Josie Shephard by the New York Juvenile Asylum and his early restoration to his relatives and friends. The Indenturing Committee of the institution last night decided that the child should be brought back from the West and placed under the guardianship of his uncle, John SHEPHARD, a reputable citizen of Rochester.

This is a triumph for the cause of human ity. However well the Asylum may treat its wards, it is a sad thing for a child of seven years to be thrown among entire strangers and apprenticed to those who have no natural affection for him. The members of the committee proved themselves fit for the important trust they hold when they decided to disregard the ignorant prejudices of subordinates and to give back little Josre to the arms and hearts of kind relatives, open

THE EVENING WORLD has furfilled its pledge to persevere in its efforts to brighten the life of this poor boy and to satisfy the love and anxiety of his friends until they should lead to success. In this we have only followed the principle which will always guide us, never to besitate to champion a good cause, and never to abandon it until justice and humanity have triumphed.

THE GOUGING FIEND.

The inhuman wretch, WILLIAM BOHAN, who is now on trial for gouging his wife's eyes out, was yesterday found guilty of the first offense, and is to-day arraigned on the second charge.

As long ago as April, 1886, this monster

deprived the poor woman of one of her eyes. driving his thumb into it and tearing out the eyeball until it lay on her cheek. She refused to prosecute and Bohan escaped punishment. Since then he frequently threatened to "have her other eye." Last July he carried out this threat, and in a quarrel seized the woman by the head and in a similar manner tore out the remaining eye, leaving his tortured victim totally and hopelessly blind, It can scarcely be believed that a woman's

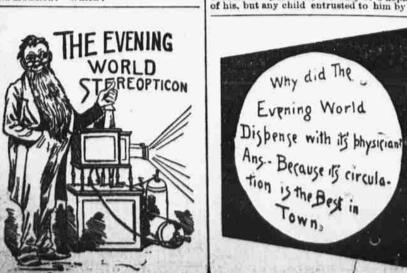

love could be strong and self-sacrificing enough to cling to a savage ruffian after such brutality. Yet this poor wife yesterday did power, by false swearing, to say the prisoner and to make the first assault appear to have been an accident. Such devotion only made the prisoner's crime more heinous in the eyes of the jury, and a verdict of guilty was speedily rendered.

It is now certain that a conviction will follow on the second charge, and the Court will disappoint public sentiment if it does not sentence the prisoner to the extreme term of thirty years' imprisonment. Such a wretch ought never again to be let loose on the community.

The Labor men who are holding a conference at Troy on the subject of the Conspiracy laws appear to be honest and earnest in their work. They will not allow themselves to become involved in politics. PATHER WARTLEY'S IMPORTANT EVIDENCE. ROCHESTER, N. Y., Aug. 28, 1888. ROCHESTER, N. 1., Aug. 28, 1888.

I, the undersigned, do hereby certify that John Shephard, now residing at 838 North Clinton street, Rochester, N. Y., is well-known to me. Some two years ago he and his wife applied to me to adopt a little boy from the March Carbon Application over which I have St. Mary's Orphau Asylum over which I have charge. Before giving him the child he was thoroughly investigated and found to be an honest, industrious, temperate and good-

iving Christian.

I saw the family a few days since, and am satisfied that the child adopted is as well cared for and cherished as an own son, and that the said Mr. Shephard and wife are very

respectable and very nice people and quite worthy of confidence.

I am, furthermore, happy to be of service to them, if possible, by this humble testimonial.

MR. WILLEY'S REPORT.

Following are extracts from the private reports made by The Evening World representatives under various dates:

Rochester, July 31, 1888.

The undersigned has visited the IShephard family, and after inquiring into the circumstances would report as follows:

John Shephard and his wife are middleaged people, who have resided in Rochester about eight years. Mr. Shephard is a shoe burnisher by trade, and has been employed in Cowles' shee factory for the past five years. His piecework book shows that he earns from \$15 to \$25 per week, rarely less than \$17. The family consists of himself, wife, and boy, the latter five years of age. This house is situated on North Clinton street, in the suburbs of the city, about three blocks from one of the public schools. ree blocks from one of the public schools three blocks from one of the public schools. It is a small frame structure, a story and a haif in height, and contains eight rooms. A large lot surrounds it, a portion of which is devoted to a vegetable garden. The house has only been built two years, and the Shephard family rent it at the rate of \$3 per week. The neighbors are mostly German of the poorer class, but quiet, law-abiding and industrious neonle

poorer class, but dustrious people.

A casual observer would always notice a glance that the interior of the house is kept in a tidy and clean condition. Mrs. Shephard appears to be a thrifty, found the child after much uncommon and below and the common and please and excellent reputation. She is pleasant and motherly in her demeanor and bears an excellent reputation of the power to get possession of it, but was prevented from doing so by representations made to be by the Superintendent of the institution, and that finally the would be like an older brother to their own child and could look out for him when the two went to school. They state that the time time is to bring him up just as their intention is to bring him up just as their own son. Incidentally it was learned that Mrs. Shephard's father and mother died a number of years before she was married, leaving her an orphan also. To sum the matter up, it would seem that the Shephards are hourst, industrious and respectable people.

ROCHESTER, N. Y., Aug. 15, 1888.

DEAR SIR: I have tried to carry out your instructions to the letter and the inclosures form a part of the result. The Superintendent of the House of Refuge resides four miles from the Shephards and is too busy to make any investigation. I expect to send you a letter from Rev. Father Hartley, assistant at the Cathedral, probably Friday. The little boy in the photo is also an adopted child, but he is cared for as though he were their own. They obtained him partly through Father Hartley and his testimonial will be a good one. Rev. Dr. Sankey is a relative of Ira D. Sankey and one of the Jeading local clergymen. The photo of the house is a proof from one taken in the winter. This accounts for the snow.

Personally I can say that I never found any family in their circumstances so well spoken of by every one as the Shephards, but it has been the longest and most elaborate of work in my experience to obtain what I have. Hope it will be satisfactory, Respectfully, D. A. WILLEY.

Aug. 16 I sent you a letter containing several reports in the Shephard case; also photos of the house and its family. Meanwhile, Mrs. Shephard has received a letter from Mr. Carpenter of the Juvenile Asylum, stating that he wants credentials from at least two persons, who knew her when she lived in New York ten years ago.

She and her husband are so anxious to adopt the boy that, though they can ill afford the expense, she is willing to go to New York and look up some former friends if she can finn them. * * I shall send to-morrow a letter from Rev. Father Hartley, through

posing the Eight-Hour Movement.

The second annual convention of the United Typothetre of America began at Masonic Temple this morning. About one hundred of the members were present, and others are expected to arrive.

Theodore L De Vinne, of this city, presided and an address of welcome was delivered by Mr. J. J. Little. He stated that the objects of the organization were to meet the labor movement squarely and fairly and on speaking terms.

THE WONDERFUL CARLSBAD SPRINGS.

An Eminent Physician Reads a Paper of Great Interest Before the International Medical Congress.

At the Ninth International Medical Congress Dr. A. L. A. Toboldt, of the University of Pennsylvania, read a paper stating that out of thirty cases treated with Carisbad Water and the Powder Carisbad Sprugel Salt for chronic constitution, hypochondris, disease of the liver and kidneys, jaundice, adiposis, diabetes, dropsy from valvular heart disease, dyspepsia, catarrhal inflammation of the stomach, ulcer of the stomach or spleen, children with marasmus, gout, rheumatism of the joints, gravel, &c., twenty-six were entirely cured, three much improved and one not treated long enough. Average time of treatment, four weeks. The Doctor claims, in conclusion of his upper, that the Uarishad Mineral Water, as exported by the city of Carlsbad, being the natural product, is much to be preferred, where the quantity of water is no objection, particularly in dis-eases of the Stomach. Whenever the quantity of water cannot be taken the Powder Carisbad Sprudel Sait (gen-nine imported) will answer equally as well. He states that the effect of the Water and Powder Sprudel Sait is to be reited upon, independently of any adjuncts of treatment, such as diet and exercise, &c. "My experinos with the genuice imported Carlabad Salt in powder form has been such that I may truly say that no remedy which I have employed has given me as much pleasure and profit as this particular one." The dose of Salt is a tesspoonful three times a day dissolved in water. The GENUINE article is bottled under the supervision of the city of Carisbad, and has the seal of the city, and the signature of Eisner & Mendelson Co. on the neck of every bottle. All others are worthless imitations. The genuine is never sold in bulk. Dr. Toboldt's paper and table of cases mailed to any address upon application to the agents of the Carlsbad Spring Eisner & Mendelson Company, 6 Barclay street, New York. For sale by all

THE ANTI-POVERTY FAIR.

It Opened and Prospered Despite the Rain and a Little Police Mistake.

"It was a little mistake," said Sergt. Patrick J. Lane to an Evening World reporter this morning at the Nineteenth Precinct Station-House. The allusion was to the entrée of the Metropolitan Police at the Anti-Poverty Fair in Madison Square Garden last night. As soon as Leader McAuliffe had set his orchestra to work Officer John Buckley electrified the assembled Anti-Povertyites by electrified the assembled Anti-Povertyites by swooping down on him and hauling him off to Thirtieth street station-house, where he was charged with giving a concert without a license. Mr. William Martin promptly furnished nominal bail in the sum of \$300, and at 9 o'clock McAuliffe had set the currents of gayety again in motion by his festive strain. The current was interrupted, of course, The current was interrupted, of course, while he was a non-conductor. The police mistake was due to an understanding that beer was to be sold, when it was not.

CITOYEN TRAIN TO THE RESCUE.

All the Jacksonvillians Want, Says He, Is a Leader—He Will Be Their Leader.

George Francis Train has been taking a deep interest in the condition of affairs at Jacksonville for some time, and has made up his mind to go to Florida's stricken city to check the disease.

Mr. Train was lounging about the corridor of the Continental Hotel last night clad in a dark suit, slouch hat and patent-leather shoes, when an Evenino World reporter came upon him. He was in a very talkative mood, but his whole mind seemed to be centred on the yellow fever.
